Projects

E-Commerce Website |

- Built a responsive e-commerce website using HTML5, CSS3, and JavaScript, featuring product listings, category sections, navigation bar, and contact page.
- Designed modern UI components including responsive navbar, product cards, hover effects, media queries, and mobile-first layouts for cross-device compatibility.
- Integrated external services such as Google Maps embed and Formspree contact form, following clean code structure and frontend best practices.

Portfolio Website |

- Designed a responsive personal portfolio website using HTML5, CSS3, and JavaScript with smooth scrolling, animations, sticky navigation, and mobile-first design.
- Implemented interactive UI/UX features including CSS animations, hover effects, progress bars, and JavaScript-based navbar toggle and scroll-spy.
- Showcased live projects with GitHub/external links, resume download, social profiles, and a clean, modular frontend code structure.
